- Book of the Month - Bookmarks - Bookshelf - Browse Books - Categories - Folders - Favorites - Management - New Books - Reading List - Tags - Tagging - Tools

Book of the Month With Book of the Month, a program that will help you keep a record of the books that you read, you can:

- Keep track of the books you've read in a list
- Keep a record of the books you have in your library
- Take notes on a book
- Share books you read with your friends
- Use the books you read to study subjects you're interested in

**Bookmarks** Bookmarks are sections of a book that allow you to quickly find a certain passage. You can have as many bookmarks as you like and organize them however you like, all you need to do is tell bookTome to update the bookmark lists as often as you like.

**Bookshelf** Adding books to your bookshelf is as easy as dragging and dropping them. You can create as many bookshelf as you want and organize them however you like. If you don't like where a book was placed, you can simply drag and drop it to a new shelf.

**Browse Books** BookTome's powerful browsing feature allows you to quickly search for your favorite books or quickly add any book from your library to the next page. BookTome displays books as thumbnails so you can quickly see what a book is about or how much you like it.

**Categories** Categories help you organize books into logical groups so you can more easily find the books you want. You can create as many categories as you like and organize them however you like. Categories help you organize books into logical groups so you can more easily find the books you want.

**Folders** Folders are simply a way to organize books in categories. You can create as many folders as you want and organize them however you want. By default, folders display their contents as thumbnails so you can quickly see what a folder contains. You can always display a folder's contents as icons or as a list.

**Favorites** Favorites are bookmarks that appear as buttons on your bookshelf and on your Start menu. BookTome automatically creates a set of favorite books and displays them in the Favorites section of the program. The Favorites section also displays recently opened books so

## Portable BookTome [Latest]

Portable bookTome is a software application dedicated to helping individuals keep track of all the books they have in their home or computer, which of them they have read and create wish lists. Seeing that this is the portable version of bookTome, you are not required to install it. As a consequence, the Windows registry and Start menu/screen are not going to be updated with new entries. In addition to that, it is possible to use Portable bookTome on any computer you have access to, by copying the program files to a portable storage unit, such as a USB flash drive. You can also copy them to any location on the hard disk, in order to run the utility from there. The easy-to-use interface consists of a navigation panel and a window in which to display all the actions available. You can add an unlimited number of books along with a myriad of details, including title and author, book cover (JPG, GIF, BMP, ICO, PNG etc.), number of book and pages, ISBN, publisher, purchase date and price, rating (from one to five stars), description and tags. A search function will enable you to look into several fields (title, author, purchase store, book number, tags etc.) by inputting a keyword. By using this software tool, you can also manage wish lists, add e-books and orders you have placed. The settings panel enables you to perform automatic daily backups, show history features, configure view (small or large thumbnails, change color scheme, display particular columns etc.). With comprehensive Help contents, import and export capabilities (CSV files) and a good response time, Portable bookTome is a useful piece of software for people who enjoy reading.
